

**CRANK CASE BREATHER KIT - PCV KIT – OIL SEPARATOR
COLD WEATHER VERSION**

This kit is fitted to M52 and M54 engines, commonly used on the **E46, E39 & E83 X3, E53 X5, Z3 Z4** models. It features 4 x hoses and the valve and the o ring set for the dipstick and distribution piece. (sometimes disturbed when you remove the inlet manifold.) . The valve and hoses have a shrink wrapped sheath around them to protect them from colder temperatures.

Common symptoms of a faulty unit are:

- Erratic engine idle speed and difficulty starting.
- Excessive oil consumption and poor fuel economy.
- Engine management light stays on.

We supply a kit made by FEBI BILSTEIN priced at £96.00 including vat
